

BENEFITS:

- INCREASES NUTRIENT AVAILABILITY
- INFILTRATION
- INCREASES EXCHANGE CAPACITY
- IMPROVES WATER MOVEMENT

Propel is a concentrated liquid humic acid and superior soil penetrant providing multiple benefits for problem soil conditions. The complexing action of **Propel** can decrease nutrient tie-ups and effectively move excess water through compacted soils.

ACTIVE INGREDIENTS

Proprietary Blend of Humic Acids and Di-Sulfosuccinate Surfactants 7.30%

Net Weight: 0.980 kg/L

PROFESSIONAL USE GUIDELINES ⑥

APPLICATION:

Apply with any equipment that delivers an even coverage to the targeted area. Ideally, **Propel** should be watered in within 6-12 hours.

RATE OF APPLICATION FOR SPRAYING:

Apply at the rate of 10-20 L/ha. Maximum benefit will be obtained when used during aerification.

RATE OF APPLICATION FOR IRRIGATION/FERTIGATION:

Apply at the rate of 1000 L / 50 ha over a one month period.

COMPATIBILITY:

Propel is compatible with all Floratine soil products. Tank mixing should never be attempted with any other product unless definite compatibility is predetermined by using the standard jar test. For best mixing results, remove tank strainer prior to product addition.
