Dear David,

May I just take this opportunity to thank you for your superb presentation last week at Garstang Golf Club. Giving up your time, to come over to us and deliver a talk in an evening when all our personal time is precious nowadays is much appreciated.

I've talked to a few guys and had a few call me saying how much they enjoyed it. I think you stirred some thinking about wetting agents, a few guys told me they are on a programme but didn't want to admit it as you made them think about the two modes of action. I'd call that a success from a presentation. I hope you received some interest for your business from the evening too.

Many thanks once again, and I look forward to meeting you again soon.

Kind Regards,

Warren

Lancashire Turf Club
